

# CAMERA RECORD OF THE DAY'S NEWS

**HERE IS A NEW STYLE**—It has taken Los Angeles by storm. My charming lady, Gloria Swanson, movie actress, uses dainty painted designs on her lower limbs. It is said hosiery manufacturers are alarmed. (Int.)

**SUGGESTION IN SUMMER HATS**—FROM GERMANY—Noted dancer, Bertha Bibb, shows her new picture hat. (Int.)

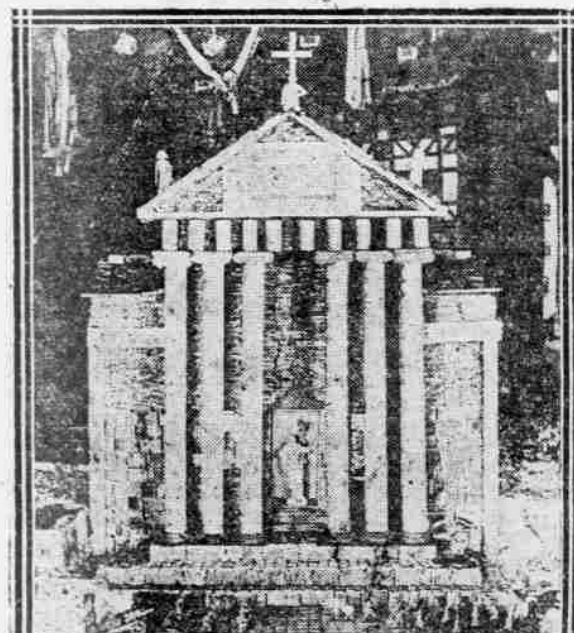

**EDNA WALLACE HOPPER**—Though fifty, wears a youthful face, given her by plastic surgery. (Int.)

**JACQUELINE LEBAUDY**—Heiress to the millions of the "Emperor of the Sahara" is reported to have fled St. Cloud, Paris, with her husband, though her mother claims the marriage not legal. (Int.)

**"BARNEY GOOGLE" SAILS FOR EUROPE**—William De Beck, comic artist (waving cap), and Rudolph Block, head of "International Comics," off for Europe.

**CATHEDRAL OF VILNA**, Germany, a replica made from 5,000 discarded street railway tickets. (Int.)

**RICHARD BENNETT**—Now appearing in the Broadway play, "He Who Gets Slapped," claims to be the most slapped individual on the stage. He will be the guest of honor at a dinner for other similarly abused actors and actresses.

**PROTECTS BEAUTY**—Novel headgear used by many British housewives to protect face, eyes and hair while working. (Int.)

**LADY MACKENZIE**, well-known Englishwoman, narrowly escaped death when she was caught thirty feet under the sea in a diver's suit. (Int.)

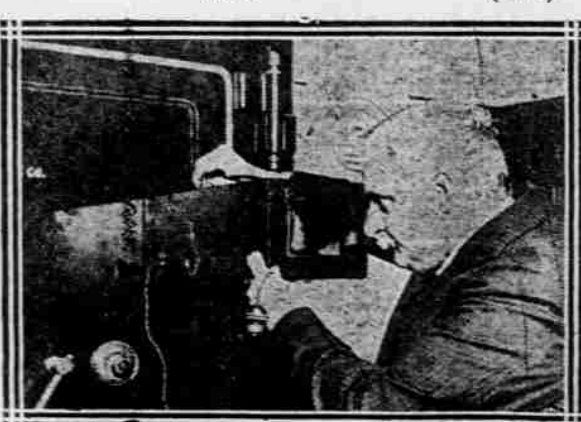

**GEORGE COHAN** and his daughter Georgette in "Madeleine and the Movies" on Broadway are the only American actors, father and daughter, appearing on the stage together.

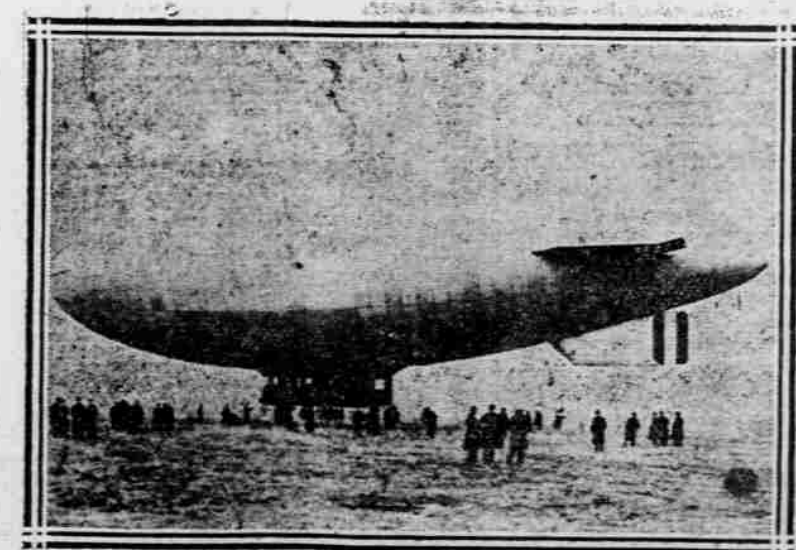

**AN EASTER FASHION HINT** from Mary Roberts Rhinehart, snapped on Atlantic City's boardwalk. (Int.)

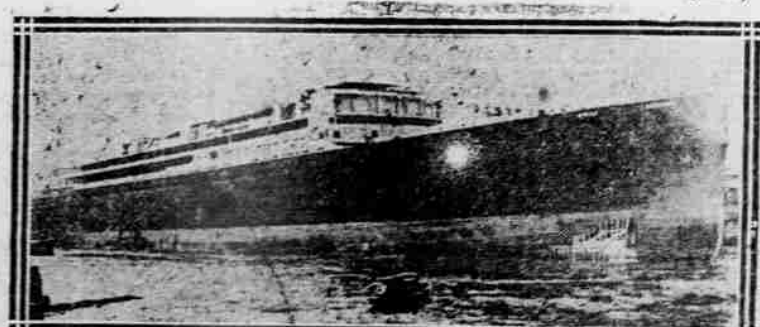

**MISS MARIE RATH**—Only woman electrical engineer employed by the Edison Company. Cornell graduate; one of the few women electrical engineers in New York City. (Int.)

**NEW FINGERPRINT CAMERA**—This camera, with the aid of six electric bulbs, produces an accurate photographic record of finger markings direct from human fingers.

**NEW AMERICAN DIRIGIBLE** which will replace the destroyed Roma. It is 170 feet long, of non-rigid type, with a gas capacity of 180,000 cubic feet. (Int.)

**LARGEST PASSENGER VESSEL IN THE WORLD**—The old German Bismarck, now the property of Great Britain, is almost ready for her maiden voyage. (Int.)
